

Academic Integrity and Conduct

Students are expected to understand and abide by the university's Academic Honesty policy and Codes of Conduct. We expect students to not plagiarize or misuse documentation sources, and to exhibit signs of rudeness, aggression, and/or violence. Plagiarism is defined as copying work created or published by others, paraphrasing, or using ideas from a source without proper attribution.

Editing

The FAMU Writing Resource Center does not and will not edit papers for you. We will help bolster your writing strengths and build on your writing weaknesses in order for you to identify issues in your own writing and fix them.
